This graduation plan illustrates the type of curriculum a student with an associate degree in Medical Laboratory Technician (MLT) would take to complete the degree. This plan will shift depending on transfer credit of general education courses from associate degree in medical laboratory technician. It is not meant to serve as an official document. Students should contact their academic adviser to develop a personalized plan of study. Refer to the University Catalog for a complete list of requirements: <https://catalog.uwsp.edu/>.

\*Prior Learning Assessment (PLA) credit can be awarded to students who have two years of work experience as a certified MLT in a medical laboratory setting. Students may apply for prior learning credit for demonstrated proficiency in their professional practice. Up to 12 credits may be awarded. Consult with adviser for more information. An affiliation agreement will need to be completed with student's employer and UW-Stevens Point, if not already an affiliated partner.

\*\*Prior Learning Assessment (PLA) credit can be awarded to students who have two years of work experience as a certified MLT in a medical laboratory setting. Students may earn 3 credits in PLA for HSW 385.

Must hold an associate degree from an accredited MLT program and have two years experience as a certified MLT in a medical laboratory setting before taking MLT to MLS courses. Students who have not reached the two years' experience may work on general education and other program requirements in the meantime.
