

PART VI: ENERGY ACTION PLAN

Review the list of ideas that you brainstormed for reducing energy use and increasing energy efficiency at your school. Prioritize the ideas and decide on a few action projects that you could do to reduce energy use at your school. See the next page for examples of action projects.

List your action project ideas for each section:

Building Information, Energy Costs, and Energy Sources

Schoolwide Energy Survey: Appliances and Electronic Devices

Lighting

Temperature Control

Education, Training, and Community Connections
